- ✓ Enhance economic competitiveness

1st REGIONAL AI STRATEGY

>> US Acknowledges:

“AI is a national security issue, and it is a strategic priority for both domestic and foreign policy.”

- AI Task Force - AI Strategy - DARPA AI Funding.
- AI as key factor in World Order restructuring.
- China is gaining major advantages in AI dominance.
- Trend projected to continue toward supremacy.

“China wants to control the entire world.”
- Sen. Rick Scott

LATAM - AI Powerhouse:

Latin America is an enormous strategic asset for US Foreign Policy & offers as an advantage:

- Growing Population = More Data
- Emerging Economies = Bullish Investment
- Cultural Similarities = Scalable Environments
- US Historic Influence = Reliable Partnerships

A New World Order...

Regional AI Strategy to counter Chinese takeover of AI Supremacy

- US-LATAM Alliance ensures democratic global AI deployment & influences value priorities.
- GENIA counters China dominance.
- 1st Effort to Promote AI International Cooperation.
- “AI will add \$15 Trillion to the World Economy by 2030.” - pwc

“Standards have to go beyond the lab, the workbench or the corporate boardrooms --we need to start to reflect before we move into a future in which AI systems affect an individual’s agency, identity or emotion.” - John C. Havens
