

GENIA

Inclusion to the Global Development of Artificial Intelligence

GENIA was incubated in 2018 at Singularity University — NASA's research center in Silicon Valley — when a group of Latin American experts joined forces with the mission of including Latin America in the global development of artificial intelligence.

Regional Integration

In 2019, GENIA was the first organization to promote the concept of a Regional Artificial Intelligence Strategy, focused on the inclusion of Latin America in AI development. We traveled to Washington, D.C. to present to the Organization of American States (OAS) and seek support for its implementation.

Latin American Council of Innovation & Knowledge *(CLIC – Spanish acronym)*

GENIA and the Innovation Club of the Latin American Network of Innovation Clubs (RELACI) formalized a strategic alliance to empower the private sector in the creation of a Latin American ecosystem for artificial intelligence. RELACI links 10 countries in the region with the aim of catalyzing business innovation in Latin America.

[Collaboration Seeks to Transform the Industry 4.0](#)

AI Latin American Academy (*ALIA - Spanish acronym*)

ALIA trains talents in artificial intelligence from zero programming experience, turning them into specialists in machine learning and deep learning. The first cohort will train a thousand young people from Central America and the Caribbean in artificial intelligence, under the coordination of GENIA.

Regional IA Solutions Platform

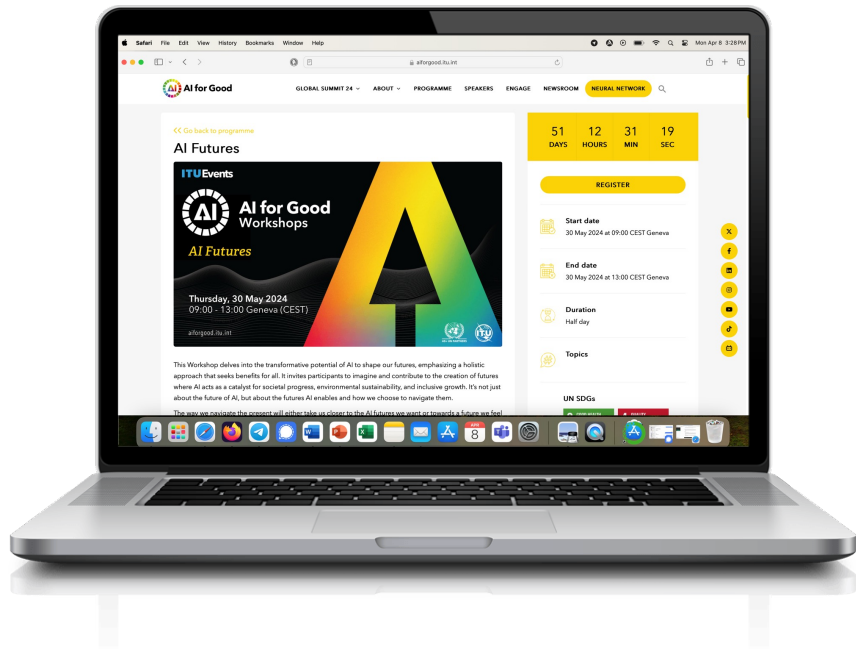

GLÁPAGOS

Evoluciona Tu Negocio Con Inteligencia

GLÁPAGOS, GENIA's holistic artificial intelligence platform, offers representative solutions to empower the sectors with the greatest impact on the economies, businesses, or industries of LAC. It leverages an optimized business, technological, and data ecosystem through advanced AI integration. Through GLÁPAGOS, GENIA enhances operational capabilities and highlights updated competitive advantages in the business and industrial environment.

GLÁPAGOS - Representative Solutions to Empower High-impact Sectors

AI for Good - UN **Action-Oriented Initiative**

Selected by the organizing committee of the International Telecommunication Union (ITU) of the UN, GENIA will represent Latin America and the Global South at the "AI Futures Workshop" of the "AI for Good Global Summit 2024" in Geneva, as well as in accelerating the United Nations Sustainable Development Goals (SDGs).
