ARTIFICIAL INTELLIGENCE STRATEGY for AMERICAN LEADERSHIP

STRATEGIC ALLIANCE TO SECURE SUPREMACY

US-China geopolitical dispute is intrinsically technological. **Whoever leads Artificial Intelligence (AI)** *- the brain of the Fourth Industrial Revolution-* **will win the race**.

China is gaining major advantages in AI dominance and the trend is projected to continue. **American leadership** depends on international cooperation; US-LATAM Alliance serves a strategic priority to counter Chinese takeover of AI Supremacy & ensure global democratic AI deployment aligned with US values.

WINNING EDGE: REGIONAL AI STRATEGY
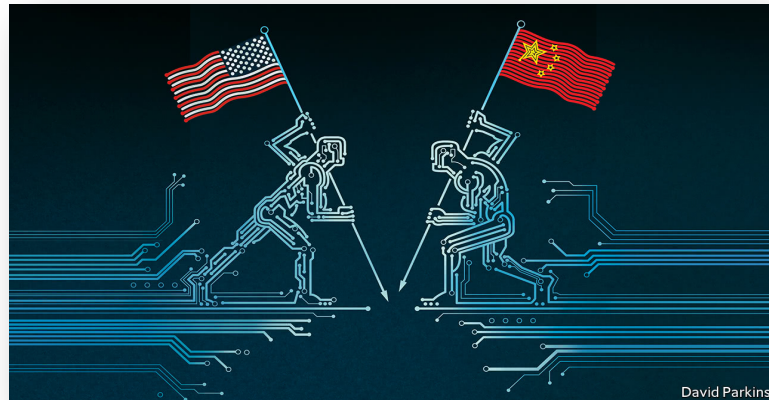

>>> Official Consensus

AI is a national security issue, and it is a strategic priority for both domestic and foreign policy.

AI Task Force • AI Strategy • AI Caucus

"It's time for Congress to play its role." Kelly (D-Illinois)
"…technology has been critical to our success since World War II, and we are in a race with the government of China," Hurd (R-Texas)

"U.S. Needs Sharper Focus on Artificial Intelligence Policy."
- Congressional Artificial Intelligence Caucus

David Parkins

LATAM – VALUABLE ALLY

Latin America is an enormous strategic asset for US Foreign Policy:

- Growing Population = More Data
- Emerging Economies = Bullish Investment
- Cultural Similarities = Scalable Environments
- US Historic Influence = Reliable Partnerships

TIMELY POLITICAL LEADERSHIP

Procure Regional AI Strategy to counter Chinese AI takeover

- Champion AI Investment Agenda at Appropriations Committee
- Channel American AI Regional Strategy
- Join & Influence Congressional AI Caucus
- Lead International Cooperation & AI Diplomacy
